

Up-to-date hygiene concept

Special times ... with different conditions.

For this we need your „help“ so that you can continue to enjoy your travels with us!

Your health is important to us. That's why VarioBus creates all the necessary conditions so that we can continue to offer you first-class transport services.

Furthermore, we guarantee that each bus trip will be carried out in accordance with the current hygiene regulations of the German federal states and the procedural instructions of the tourism industry associations.

We therefore ask you to observe the following rules of conduct on board. Many thanks!

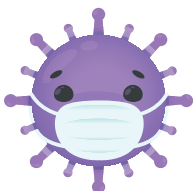

Your VarioBus team wishes you a pleasant journey!

1. Our precautions

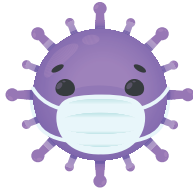

- thorough cleaning of the bus before the start of the journey
- critical areas are cleaned with disinfectant (handrails, armrests and headboards)
- attention is paid to increased air circulation in the vehicles
- the loading and unloading of luggage is carried out exclusively by the driver
- the driver wears gloves when loading

2. Journey planning

- Passengers with symptoms of illness are not allowed to travel
- If you are planning a trip to another federal state, the hygiene rules laid down there apply when you leave the bus

3. Entry

- the hands must be disinfected using the disinfectant dispensers on the bus → Use the dispensers at the respective entrance.
- the distance of 1.5 metres between passengers must always be maintained during boarding
- the wearing of a mouth-nose cover is obligatory

4. Distribution of seats

- there are fixed seats → the placement should be chosen so that there is as much distance as possible between the passengers
- a mouth-and-nose cover must be worn during the journey if the minimum distance of 1.5 metres cannot be maintained

5. During the journey

- if you leave your seat, please wear the mouth-nose cover in any case
- the on-board toilet is not in operation → necessary stops are scheduled

6. Getting off the bus

- a distance of 1.5 metres must be maintained between passengers
- the mouth-nose cover must be worn

7. Return

- before boarding, the hands must be cleaned again using the disinfectant dispensers in the bus
- the distance rules and the obligation to wear a mouth-nose cover must be observed again

We wish you much strength and above all health in these turbulent times and look forward to welcoming you as our guests on board.
